EDUCATION

Moscow Institute of Physics and Technology (National Research University) *Sept 2018 - June 2022*
Bachelor of Applied Mathematics in Computer Science
GPA 4.50/5.00, including "excellent" at the Bachelor's Final State Exam in Mathematics

Distant Education School of Moscow Institute of Physics and Technology *2015 - 2018*
Diploma with Highest Honors

High School №14 Specialized in Foreign Languages *2015 - 2018*
Severodvinsk, Arkhangelsk Oblast
Unified State Exam (Mathematics, Physics, Russian language): 294/300

WORK EXPERIENCE

Data Science Intern at MegaFon *May 2022 - now*

Internship at the Department of Machine Learning and Big Data Analysis.

IT Business Analyst at Deloitte & Touche CIS *Jan 2022 - Feb 2022*

Worked in the Risk Advisory department at Deloitte CIS and participated in engagements related to the assessment of systems of internal controls. Major clients operated in the fintech and foodtech industries.

Intern at Deloitte & Touche CIS *Sept 2021 - Dec 2021*

Was promoted to a full-time position 3 months before the end of the internship period.

COMPETENCES

- **Programming languages**: Python 3 (numpy, scipy, pandas, sklearn, simpy, matplotlib, seaborn, PyTorch, Keras, asyncio), T-SQL (queries, db designing, access, views, transactions, metadata, triggers, indexes)
- **Languages**: Russian (Native), English (Advanced), French (DELF B1)
- **Software and platforms**: PyCharm, MS SQL Server, Jupyter Notebook, LaTeX, Microsoft Office.

PROJECTS & ACHIEVEMENTS

- Regional Stage of All-Russian School Olympiads in Mathematics, Physics and French
- Python specialization by VK on Coursera: "Diving in Python" and "Python for Data Science" courses
- Machine Learning and Data Analysis specialization by Yandex on Coursera: "Mathematics and Python" and "Supervised Learning" courses
- "Neural Networks and Computer Vision" course by Samsung Research Russia on Stepik
- Model of multiple resources' distribution in Python as a part of the bachelor thesis on the interception of game and queueing theories; client-server application in Python; application for data transfer between MS SQL database servers

---

EXTRACURRICULAR ACTIVITIES
